Skills

- Bilingual in Spanish and English
- Good Listener
- good time management
- Good communicator
- Calm in stressful situations
- Good leader
- Good with money
- Good with people

Experience

Setting up for performances

2023-present

- I have assisted in setting up and putting away materials used for folklorico shows I have performed in. I collaborated with my peers to organize our outfits and stage props. We make sure everything is neatly organized so the show will run smoothly and stress free. After the show, I assist others in making sure to leave the dressing rooms cleaner than they were when we got there. I help others ensure they properly put away their things so the whole process as a group can run effortlessly. Doing this I have learned to work fast and calmly in time stressful situations, to assist others fast and efficiently, and keep cool and calm.

Babysitting

2020-Present

- I have babysat and taken care of family members and family friends kids. I have managed kids from the ages of 2 months to 10 years old. I am trusted by the parents to be responsible and keep their kids on a routine. I encourage the older kids to clean after themselves and help with the younger kids. I resolve conflicts the kids may have with each other and motivated them to play nice and get along. During these times my patience, problem solving skills and creativity improve vastly.

Community service hours at the rodeo

*summers of
2024-25*

- I completed 14 hours of community service working at a food booth. I was in charge of the cash register, where I managed money transactions swiftly and efficiently. I worked in customer service, providing answers to any questions people may have. I also worked on handing out orders. Doing this I developed multiple skills, like how to communicate efficiently, work well under pressure, and to do fast mental math.

Link Crew Leadership

*summer
2024*

- I volunteered in my school for a week to help with the incoming freshmen's orientation. The first couple of days was for the leaders to learn and collaborate as peers. I learned games and ice breakers that we would use to help the freshman talk to and get to know each other. The day of the orientation I worked with a partner and we guided our group through a campus tour and answered any questions they might have had about their classes or the school. We encouraged everyone to interact with each other and participate in the activities. Doing this I improved my patience skills as well as interaction skills.

Family Fall Fair

Fall 2023

- I volunteered at my local library to manage activities for younger kids and families. My peers and I set up the space and we collaborated to make sure everything ran smoothly. I was set at a craft booth and I helped the kids with the craft they were working on and kept them entertained. I already knew how to work well with kids and I kept the booth running smoothly and communicated with parents by answering any questions they might have had. During this time I managed to improve my multitasking skills and manage my time wisely.
